Sign up & Sign In

Users can sign up with their primary data (Preferably OTP) or Email. Once someone sign ups. Secondary data can be fetched.

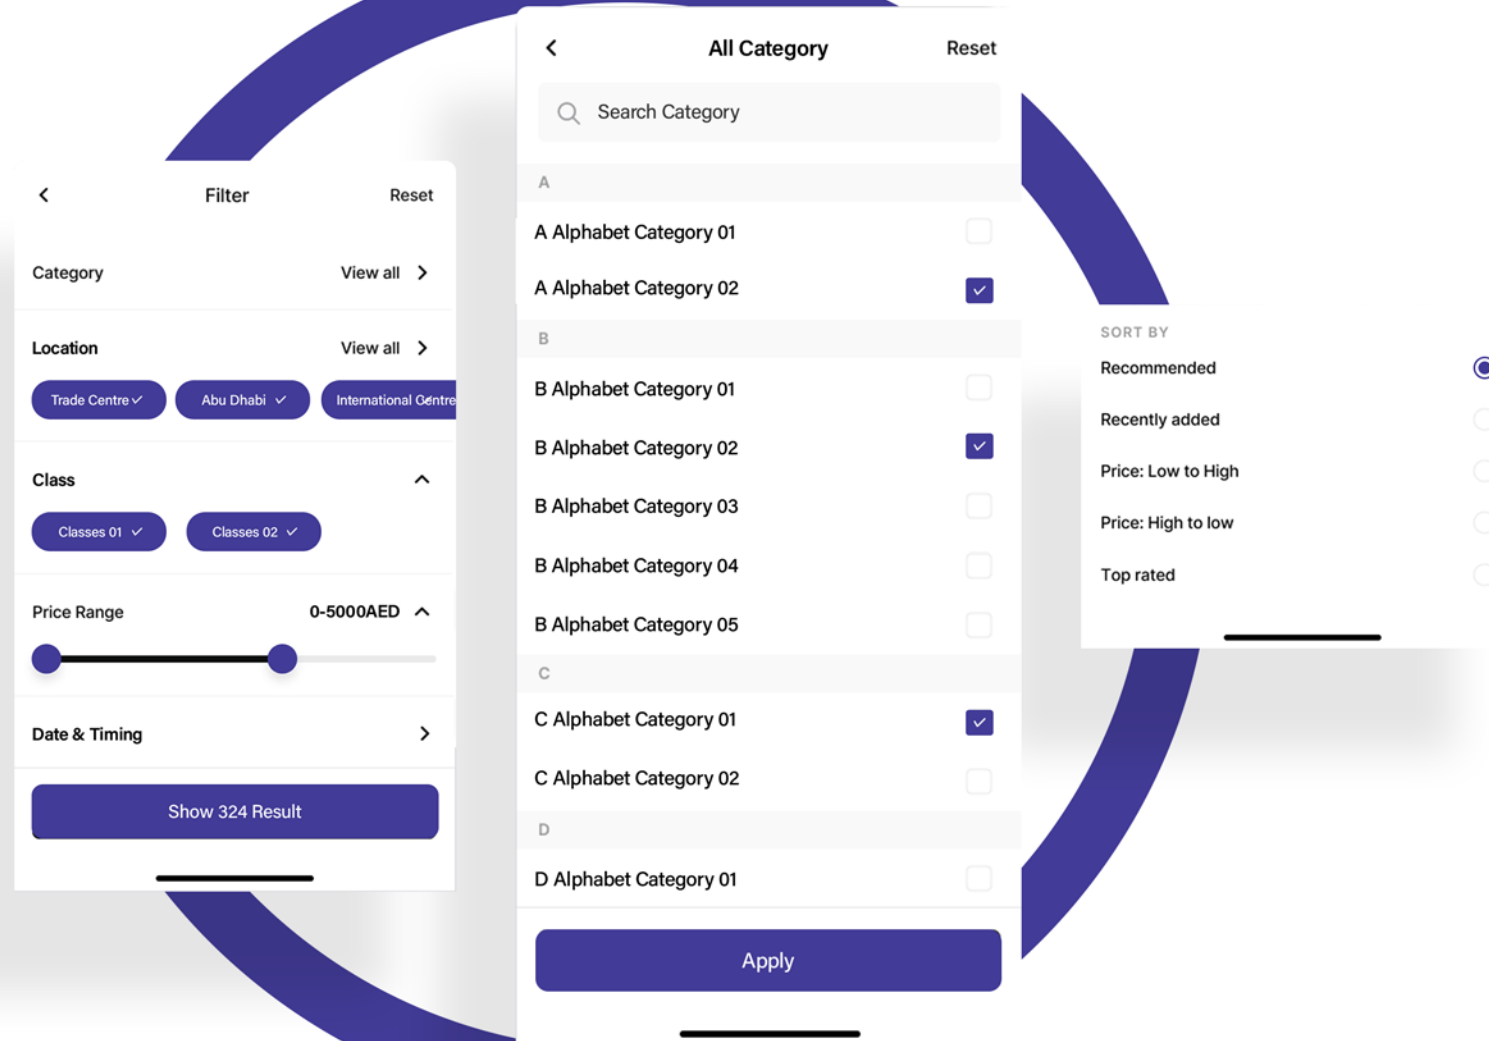

Home & list Screens

Home screen would highlight all the usage of buttons predominantly on the app and users can take advantage of the tour and can save their favorite session/class on the app through wish listing on their list.

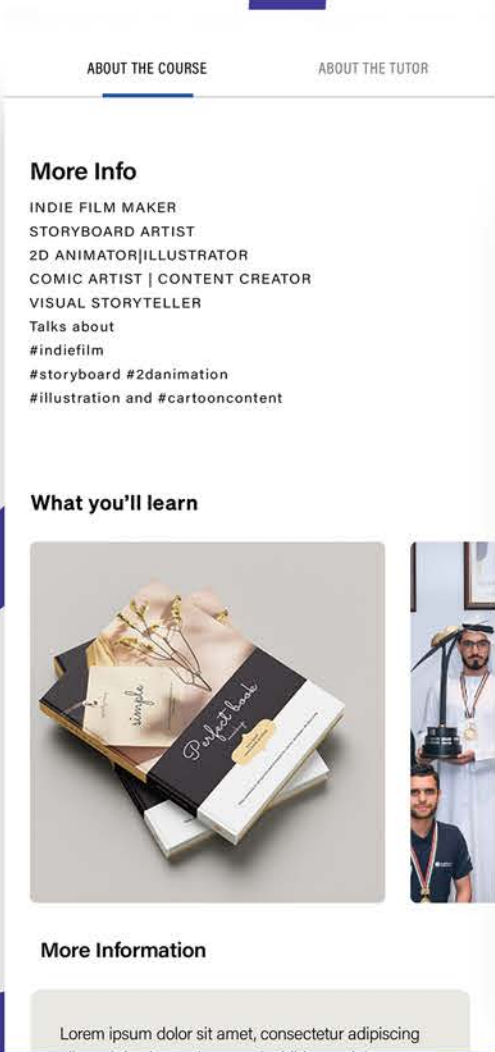

Search & Category

Search and Category - Users can search based on category of the course, timings, city. The suggestions will drop by as the user is typing the letters. One can select for there.

Filter and Sort

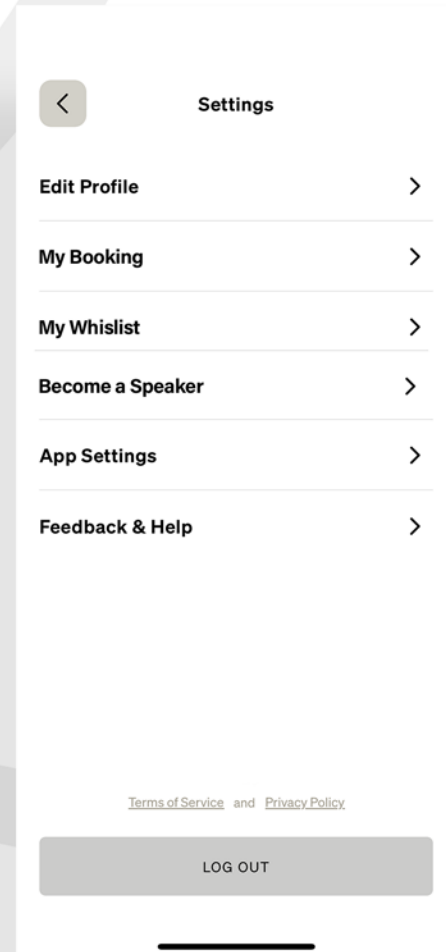

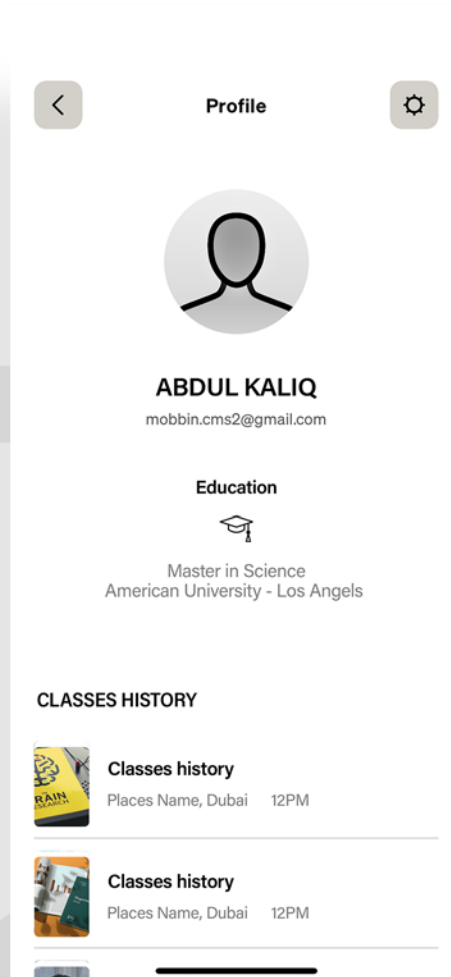

Users can filter and sort based on category, location, cities, price, date and timing.

Course Page

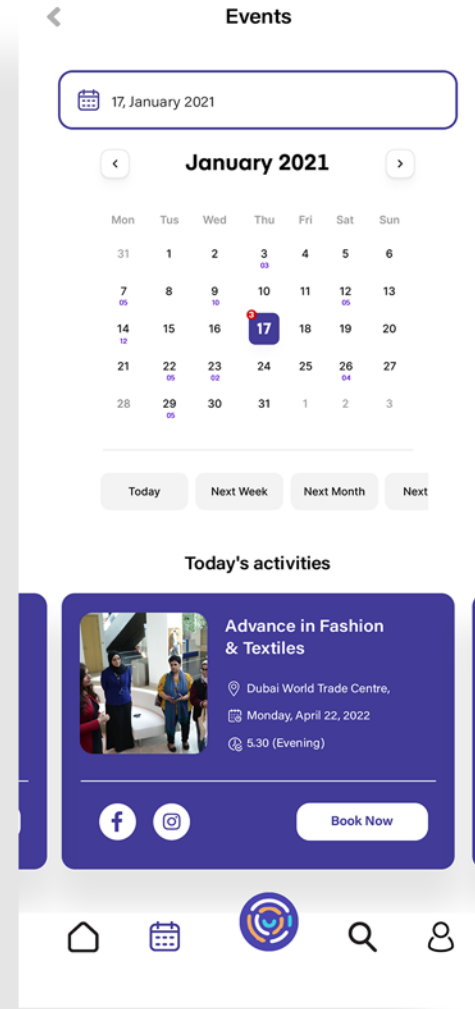

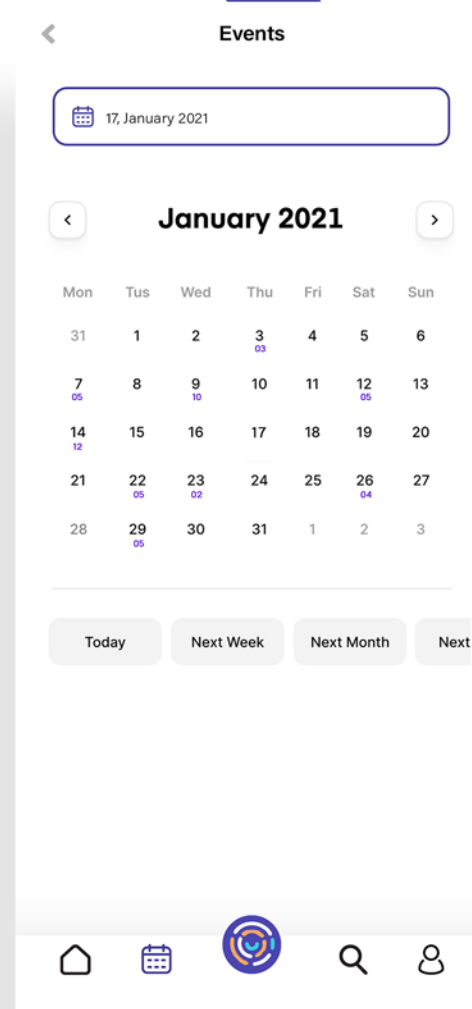

THE COURSE PAGE CAN BE DIVIDED INTO TWO PARTS

- i) About the course - this displays synopsis of the course, location of the course, date and timing of the course, information on what the user will learn and information about the session break down.
- ii) Instructor/Tutor - There will be information about the instructor/tutor with his/her bio, education, photos of previous courses and sessions and other general information like designation, age and description.

Profile & User Screen

1. User can check out their saved or purchased class timings.
2. Edit their profile
3. Toggle with their app settings
4. Call or text the app administration in case of any help
5. Log Out

Course Calendar

One can view the calendar with respect to date and time. Dates where course are not available will be blocked in grey. Dates where courses are available will be highlighted as a notification box. A user can click in that to view details about the course on that particular date.

Course Hosting and Menu

- i) In case if someone wants to host a course with us or probably looking for some sort of support from Droob one can fill up a basic form and submit the application which would eventually be received by the administrator.
- ii) We are dividing the menu into five different buttons below
- **Home:** Where they can preview the latest courses
 - **Calendar :** Where one can look into finished and upcoming courses according to dates
 - **Courses :** This button has been modified into droob logo, where one can know all about the courses that has been hosted on the App
 - **Search :** Here one can search for courses based on filters and sorting options.
 - **Account :** Here a user can preview courses that have been booked by the particular user and other metrics like adit profile, Contact, My wishlist, become a speaker, App settings and Log out feature.
